Sunleaves Fan Speed Controller Instructions

Thank you for choosing to grow with Sunleaves products! Your satisfaction and success are important to us. For best results, carefully read the following instructions before using your Sunleaves Fan Speed Controller.

Features of your Sunleaves Fan Speed Controller
- Variable or full power options
- 6’ grounded power cord
- 120V/15A operation
- Includes 1-year warranty

Using the Sunleaves Fan Speed Controller
1. Before operating the Sunleaves Fan Speed Controller, verify that the fan or other device that you intend to use with the Sunleaves Fan Speed Controller is powered by a universal motor. Other types of motors, including induction motors, are not compatible with the Sunleaves Fan Speed Controller. If you are unsure what type of motor it uses, check the documentation that came with the device or contact its manufacturer. The Sunleaves Fan Speed Controller should not be used for devices that already incorporate a form of variable control (i.e. low/med/high settings).

2. The Sunleaves Fan Speed Controller’s three settings:
   - ADJ: Pressing the switch to the left allows for adjustable speed using the dial.
   - ON: Pressing the switch to the right supplies full power to the attached device.
   - OFF: When the switch is level, no power is supplied and the attached device is off.

3. Always start with the power switch in the “OFF” position. If the device you are attaching to the Sunleaves Fan Speed Controller has a power switch, make sure that it is turned off as well. Take this opportunity to ensure that the device is clear of debris and is ready for safe operation.

4. Insert the device’s electrical plug into the outlet on the bottom of the Sunleaves Fan Speed Controller.

5. Insert the Sunleaves Fan Speed Controller’s electrical plug into a properly grounded 120-volt AC outlet. If you use an extension cord, it must be rated zero to 15 amps for up to 50 feet with the wire size rated at 18 AWG.

6. If applicable, turn the attached device to the on position. For full power to the attached device press the controller switch to the “ON” position. To engage the “ADJ” setting always start with the dial at the highest speed to the right. Press the controller to the “ADJ” position and adjust the dial counterclockwise to your preferred speed. To stop the device, return the controller switch to the “OFF” position. IMPORTANT: Avoid running the fan below 50% of its normal speed, as doing so may cause its motor to overheat. Due to differences in fan specifications, the Sunleaves Fan Speed Controller doesn’t necessarily run all fans at 50% power when the dial is turned halfway.

7. Unplug the device from the Sunleaves Fan Speed Controller when not in use.

Maintenance
- Keep the Sunleaves Fan Speed Controller away from excessive heat and moisture.
- If the Sunleaves Fan Speed Controller becomes dirty, unplug it from the power supply and wipe it down with a damp cloth. Do not use chemical cleaners, as they can damage the controller.
- Do not attempt to use the Sunleaves Fan Speed Controller to control any device that requires more than 15 amps, as this may cause the fuse to blow. In the event of a blown fuse, replace with a fuse that is rated for 15 amps. Periodically check the electrical cord for signs of overheating. If the electrical cord has overheated, unplug the Sunleaves Fan Speed Controller from the electrical outlet.
Limited 1-Year Warranty Terms

Subject to the following limitations, Sunleaves Garden Products warrants that the Sunleaves Fan Speed Controller will, for 1 (one) year from date of original retail purchase, but not exceeding two years from date of manufacture, remain free from appearance of defects in workmanship or materials. This warranty is subject to the following limitations: (a) manufacturer’s liability is limited to the replacement or repair of the unit, as decided by the manufacturer; (b) a defective unit must be returned, prepaid, with proof of purchase, to the point of purchase or as instructed below; and (c) this warranty does not apply to defects resulting from the alteration, abuse, accidental damage, unauthorized repair, or misuse of the unit. This warranty is given in lieu of all other warranties, guarantees, and conditions on manufacturer’s part, and the manufacturer shall have no tortious or other liability in respect to this Sunleaves Fan Speed Controller.

Sunleaves Fan Speed Controller Warranty Is Void if:

- NOT ACCOMPANIED BY ORIGINAL PROOF OF PURCHASE.
- SUNLEAVES FAN SPEED CONTROLLER HAS BEEN USED IN A NON-STANDARD WAY INCLUDING GENERAL MISUSE AND OUTDOOR USE.
- SUNLEAVES FAN SPEED CONTROLLER HAS BEEN DAMAGED AS A RESULT OF ACCIDENT, IMPROPER INSTALLATION, ALTERATION, FIRE, FLOOD, OR OTHER NATURAL DISASTER.

Sunleaves Product Warranty Claims

In the event that your Sunleaves Fan Speed Controller fails to operate, we recommend first returning it to the place of purchase. Often times the supplier will be able to examine the Sunleaves Fan Speed Controller in closer detail. If the dealer is unable to resolve the problem, or if you prefer to deal directly with Sunleaves Garden Products, simply follow these instructions:

1. Call a Return Authorization Specialist toll-free at 888-464-9676 to obtain a Return Authorization number for warranty service as well as the shipping address to send your Sunleaves Fan Speed Controller in for repairs.

2. Carefully package problem Sunleaves Fan Speed Controller. BE SURE TO WRITE YOUR RETURN AUTHORIZATION NUMBER ON THE OUTSIDE OF THE PACKAGE.

3. Complete the form below and enclose it with your shipment along with a legible copy of your properly dated sales receipt. Because Sunleaves is not responsible for damages in shipping, we recommend insuring your package. Note: Warranty claims which are not clearly marked with your Return Authorization Number will be returned unopened to sender. Please allow eight to ten weeks for the return of your Sunleaves Fan Speed Controller.

Don't forget to include the following items if you are returning your Sunleaves Fan Speed Controller directly to Sunleaves:

- Legible copy of your properly dated sales receipt
- Return Authorization number on outside of package
- This completed form
