Baby Bloomer

The Baby Bloomer is a great introduction to hydroponic gardening. The Baby Bloomer's small size (12" wide) is perfect for windowsills, patios, balconies, and classrooms. This Ebb and Flow system is the easiest to setup and maintain of any soilless garden kit available today. With very little effort you can grow flowers, herbs or vegetables, indoors or out! No weeding, watering, backaches or soil borne pests! Just add nutrients and water every few weeks and the Baby Bloomer will bring you years of fun and enjoyment. Each Baby Bloomer kit comes complete with everything you need to start growing right out of the box:

Features:
- Bedding and reservoir trays are vacuum formed from strong and durable ABS plastic (no seams, no cracking)
- Bedding tray designed for easy access to reservoir
- 10 pots and high-quality seeds (lettuce and tomato)
- Six month supply of nutrients
- 1/2 cubic foot of rooting media (either Perlite or Gro-Rocks)
- Highly reliable submersible pump
- Timer for automatic watering and feeding of your plants
- Easy to use pH test kit to ensure optimum plant health
- Plumbing fittings are preassembled and ready to go!
- 1-year warranty on trays, 180 days on pump
